INNOVATION

2017-present. Take Level 1 BSN students to the library for a guided tour of library resources specifically created for BSN students.

2018-present. Incorporate death, dying, grief and loss content into all lecture classes in alignment with course outcomes. Examples are 'Dying Well' documentary with reflection and discussion, "Loss Toss" which is an exercise to develop empathy for patients experiencing losses (big and small) followed by de-brief; Added documentary called "Being Mortal" and Consider the Conversation" to help students understand importance of teaching patients about Advance Directives.

Followed by a discussion and pairing students together to begin their own Advance Directives called "Conversation Starter Kit." Students often comment on how glad they are to have a tool to use to start this conversation for themselves and their family. Bring in guest speaker from local hospice to talk to students about hospice and palliative care nursing. Introduce students to laws and past legal cases involving death and dying (i.e., Colorado End of Life Options Act) followed by a discussion of ethics and role of nurses.

- 2019 Developed "An Exercise in Bias" involving students looking at implicit bias, microaggressions, fears/anxieties as they begin nursing school and clinicals. Reflection and discussion.
- 2019. Developed New Clinical Evaluation Tool for Grade Calculation to streamline levels within BSN program. Worked with Eileen Woolwine, Assistant Professor of Nursing
- 2020 Created a survey for faculty and Level 1 BSN Students, polled all CMU Nursing faculty and BSN L1 students. Used data for class prep and national presentations.
- 2020 Developed "The Caring Project" to incorporate the art of caring into nursing education. Serves as final for NURS 372, based on EBP, personal reflection, interviews
- 2020 Interviewed by group of pre-nursing students for their paper in Ethics class, Colorado Mesa University, Grand Junction, CO.
- 2021 Post current events in D2L news shells that correlate to content students are learning so they have "real-world" and current examples. Encourage discussion, and students sign up to bring one news story related to community/public health in NURS 487.
- 2022 Met with Lauren Murphy, NP, Coordinator at Grand Mesa Youth Services to develop an opportunity for students to educate incarcerated teens. Continue to do this every semester.
- 2022 Created NextGen Unfolding Case Studies, added to all classes to encourage critical thinking and clinical judgment.
- 2023 Participated in "Teaching Square" with three CMU faculty members from other disciplines (Radiology, Kinesiology and Outdoor Recreation). I observed their classes and learned innovative ideas. We also gave each other constructive feedback.
- 2022-23 Participated in Mental Health SIM Scenario as a Standardized Patient
- 2024 Added student led skits for incivility scenarios in PD1. Students report finding it valuable.
- 2025 Added cultural content, activity, potluck to NURS 353 to increase belonging in students
